

UTRECHT Walking Time

Meters & minutes to your destination

Future Green City Congress edition

UTRECHT Walking time is inspired by Pontevedra's Metrominuto and created by the City Deal Space for Walking. Walking Time is a metro-style map to demystify how long it'll take to get from one point of the city to another on foot and aims to grow a walking culture. You will find the most important congress destinations on this map. Use other maps or apps for navigation.

Walking time is categorised by type with colour:

History	Orange line
Nature	Green line
Water	Blue line
Shops & Cafe's	Pink line
Neutral	Light orange line

The Future Green City is a walking city

This map is an initiative of the City Deal Space for Walking. We hope you will enjoy Utrecht on foot.

You live better on foot
